

Assessment of:	Roman Archery, Throwing and Siege		
Location:	Mount Cook	Date of assessment:	December 2022
Completed by:	Molly Ojari	Expiry Date:	February 2024
Ratio:	1:12 Max	Staff Competencies	Archery GB Instructor or Inhouse trained and signed off by Activity Manager
Activities covered:	Archery and Throwing. Archery Tag. Siege/Catapults		

Hazard <i>(something with potential to cause harm)</i>	Risk <i>(How could hazard cause harm and to whom)</i>	Control Measures <i>(What is required to reduce risk)</i>	In place <i>(Y/N)</i>	Action Required	Action Owner	Residual Risk <i>(low / medium / high)</i>
Slips trips and falls	To All: Breaks, trips, falls and sprains	Areas used for the Archery and Throwing session are checked prior to commencement to make sure they are suitable. Any potential hazards are pointed out to groups and unnecessary hazards are removed from the area as appropriate.	Y	Clear briefing. Pre-use range checks.	Activity Staff	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

		<p>Good instructor awareness and briefing. No running on the range. Participants instructed to hold equipment correctly. Help in group control from group Leaders.</p>				
Equipment failure.	<p>To: Participants and those in immediate vicinity.</p> <p>String may snap, bow limbs or riser may fail whilst shooting. Arrows may break on release. Throwing items may break on impact</p> <p>Fiberglass arrows may splinter.</p>	<p>Regularly (monthly) inspection of strings and bows and throwing items for wear. Equipment deemed to be unsafe replaced. Regularly (every session) check equipment, arrows for loose or damaged nocks, loose points. Damaged equipment replaced/ repaired. Check fibre glass arrows for splintering, discard if deemed unsafe. Instruct new archers against “dry firing” bows, as this can lead to early limb failure. Do not use Fastflight strings or carbon arrows on wooden bows, as these can overstress the riser.</p>	Y	<p>Quarantine damaged kit. Pre-use and post-use kit inspections. Careful bowstring selection during setup.</p>	Activities Manager, Activity Staff	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

		Correct bowstrings sizes used to prevent early limb twisting/ failure.				
Target boss falling over	To Participants and Instructors: Target boss not secured, possibly resulting in injury to archer/ Instructor and/or damage to arrows.	Only instructors to move and mount bosses. Bosses to be secured to the wall or ground- Never left propped on stands. Do not allow shooting or throwing to commence until all targets are appropriately secured.	Y	Pre-use checks.	Activity Staff	LOW
Arrow Length	To Participants: Arrows too short for the archer may be drawn off the arrow rest and loosed into the back of the riser or the bow hand.	Oversized arrows preferred. Arrow size clearly highlighted through use of different coloured fletching. Careful supervision of archers whilst drawing.	Y Y	Careful selection of kit for sessions. Good supervision.	Activities Manager, Activity staff	LOW
Collection of Arrows and Projectiles	To: Participants, Activity Staff Arrows and projectiles in the ground may	Archers instructed in these hazards and of the importance of approaching the target with caution. New archers instructed in correct technique for drawing arrows from	Y	Clear briefing. Participants only allowed to collect arrows and projectiles	Activity Staff	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

	<p>cause injury if walked/run into.</p> <p>Arrows and projectiles in target are a hazard whilst approaching the target or when being removed from the boss; especially to eyes or face.</p>	<p>boss, including importance of standing away from boss when others are pulling arrows.</p> <p>Appropriate footwear must be worn. All lost arrows are reported, and every effort is made to locate them.</p>		<p>if deemed competent by activity instructors.</p>		
--	---	---	--	---	--	--

Heavy Bows	<p>To: Participants</p> <p>Use of inappropriate draw-weight bow may result in muscular or other soft tissue injury.</p>	<p>Beginners use lightweight bows. Instructors ensure they employ correct draw technique before graduating to heavier bows.</p>	Y	<p>Adequate selection of bows available.</p>	<p>Activities Manager, Activity Staff</p>	LOW
Shooting Control	<p>To: All in vicinity</p> <p>Inadequate control of shooting may result in personal injury to an archer or spectator.</p>	<p>Shooting and throwing must always be under the control of an experienced instructor acting as Field Captain. All participants must understand that this person is in charge of the shoot and must obey their commands.</p>	Y	<p>Clear briefing</p>	<p>Activity Staff</p>	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

	Potential severity could be fatal if controls are not maintained	New archers are instructed as to the role of the Field Captain and the commands they are likely to give. Archers must be made familiar with and adhere to Archery GB Rules of Shooting. Any archer deemed by instructors or field captains not to be doing so should be asked to stop shooting and leave the field.				
Arrows Shot Outside Safety Area	To All: Arrows inadvertently shot outside of safety area may result in personal injury to spectators or archers. Potential severity of injury could be fatal.	Archers must not be allowed to use any form of “over-arm draw” and should ensure that the bow is not pointed at too extreme an angle. Whilst using the white range netting must be pulled over the top whilst Dell or zipwire is in use to prevent accidental overshoot.	Y	Careful supervision	Activity Staff	LOW
Arrows Rebounding	To Participants: Arrows may rebound towards group causing injury.	Minimum safe shooting distance must be observed. Arrows may still rebound beyond shooting line, however, if minimum distances are observed these arrows are considered spent and will not cause harm.	Y	Correctly set out archery range.	Activities Manager	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

<p>People/Animals Straying into Safety Area</p>	<p>To Participants and Staff:</p> <p>A person or animal straying into the safety area may receive personal injury from arrows or other equipment projected towards the target.</p>	<p>Ensure that access past the shooting line is not accessible by accident and is secured before shooting commences. The Field Captain and all archers must remain vigilant and suspend shooting immediately if the safety area is violated.</p> <p>All grounds are deemed accessible to the public even if this involves trespass. Ensure that spectators and those waiting to shoot remain behind the waiting line.</p> <p>Ensure all participants are familiar with the commands to start and stop shooting.</p> <p>Do not allow anyone to cross the shooting line except when instructed to do so by the Field Captain/ instructor</p>	<p>Y</p>	<p>Clear signage on approach to range Clear briefing from activity staff.</p>	<p>Activity Staff</p>	<p>LOW</p>
<p>Bow string on release</p>	<p>To Participants:</p> <p>Bruising on the inner fore arm from the bow string when shooting.</p>	<p>Ensure that archers tie back long hair and remove jewellery or loose outer garments, which could become caught. Require archers to wear arm protection to minimise possible injury and instruct in proper release technique.</p>	<p>Y</p>	<p>Clear briefing</p>	<p>Activity Staff</p>	<p>LOW</p>

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

	Bowstring may become caught on loose hair or clothing.	Encourage archers to have sleeves rolled down all the time. Close supervision, particularly during guided practice.				
Archery Tag/Projectiles/Siege Specific						
Arrows/projectiles	To Participants and Staff: Bruising, grazes.	All arrows/projectiles in use are made from high-density foam tip to prevent physical harm on impact. All participants will be fitted with a protective mask prior to the start of the activity. The area of play laid out with sufficient distance between both teams. Location of the archery tag area has adequate overshoot distance.	Y	Clear briefing from activity staff. Archery Tag arrows/projectiles clearly separated from target archery arrows/projectiles on session	Activity Staff	LOW
Shooting Catapults	Participants and Staff: Hit by flying object, cuts, bruising, head injury, eye injury.	Full safety brief from activity staff on correct safe use of catapult prior to use. Catapults only to be fired under adult supervision Only Instructor pre-approved objects to be loaded into the catapults. All participants positioned behind the catapults, out of direct range when in use.	Y	Clear safety brief by Instructor.	Activity staff	LOW

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.

		Catapults safety checked by instructor prior to use.				
Heavy/Awkward lifting	Participants and Staff: Lifting and twisting, crushing injuries, head injury, eye injury.	Full safety brief from activity staff, Instruction on correct handling and lifting techniques. Increased ratio for lifting big items Use only of handles when applicable	Y	Clear safety briefing by Instructor	Activity staff	LOW

Risk Assessment Checked by H&S or Line manager.

Name : Steve Turner CEO

Date : 11th January 2023

Low = Slight injury or minor ill health / It is highly unlikely that the harm would occur

Medium = Serious Injuries or significant health effects / There is a likelihood that harm may occur;

High = Major death, major injury (RIDDOR) or irreversible health damage / There is a high likelihood that harm will occur.
